

DRUM/PAIL HANDLING EQUIPMENT

DRUM CRADLE

Allows for easy handling and storage of 55 gallon chemical drum.

Constructed of heavy duty steel with 800 lbs capacity. Ideal for dispensing into 5 gallon pails. Easy assembly.

32045 **\$139.95**

DRUM WRENCH

Inexpensive drum bung wrench for opening standard metal, or plastic drums 20 to 55 gallon drums – 3/4" and 2" bungs.

32020 For metal bungs **\$11.95**

PLASTIC PAIL LID OPENER

Heavy-duty handle for opening and removing lids from open-head type plastic pails. Removes snap on lids equally well.

32916 **\$13.95**

DRUM SPIGOTS

3/4" and 2" spout (valve) made out of polypropylene. Chemical and corrosive proof. Suitable for use in dispensing all types of strippers, lacquers, thinners, additives, etc.

32047 For 3/4" bungs **\$2.57**
32048 For 2" bungs **\$19.95**

PLUNGE MIXER

These mixers are a must for any finisher or refinisher. Efficiently mix your paint, lacquer, colorants, or any heavy viscosity materials unachievable by hand mixing. Excellent for making custom color pigmented lacquers, paints, enamels and for mixing heavy viscosity glues and contact cement. Available in 2

popular sizes that easily connect to your stationary or hand held drill. Made of high grade steel to give lasting durability

CAT#	DESCRIPTION	
34002	Length 13", shaft diameter 5/16" Mixes up to 2 gallons	\$12.95
34003	Length 14", shaft diameter 5/16" Mixes up to 5 gallons	\$16.95

SWING T-MIXER

Possibly the most innovative and time saving mixing tool available today. Designed to mix any viscosity liquid fast, thin or thick, while lifting settled material, such as flattening agent, from bottom of container, lump free.

No need to remove pail covers; no more messy spillage.

This state of the art mixing tool inserts through the pour spout neck of the 5 gallon pail. Upon applying torque, the mixing arms open up outward from centrifugal force when a mixing device or a drill is turned on. Mixes the contents of a 5 gallon pail thoroughly in less than a minute.

Made of zinc-aluminum alloy for strong durability and long life. The body and mixing arms are cast and tumbled to burr smooth for easy clean up. The mixing blade is attached to a 3/8" shaft for easy attachment to a cordless drill. Excellent product for mixing solvent and water based lacquers, varnishes and polyurethanes; alkyd, enamel and latex paints.

34005 **\$29.95**

DRUM/PAIL PUMPS

For dispensing lacquer thinner or other solvents from 5 gal pails to 55 gal drums. Available in two types, polyethylene or metal. The polyethylene ones fit 3/4" and 2" drum bungs and dispenses about 4 to 8 oz per stroke, piston versus the lever. The lever metal one fits only the 2" bung and dispenses about a pint (16 oz) per stroke. The 92081 and 92082 have stainless steel rods for corrosion resistance.

92081

92080

92080 Polyethylene **\$19.95**
92081 Lever-Metal **\$39.95**
92082 Lever-Polyethylene **\$29.95**

92082

5 GAL PAIL PUMP

No need to lift to dispense a pail and break your back. This handy pump fits all 5 gallon pails for dispensing any low viscosity liquids except methylene chloride based removers.

92079 **\$15.95**
